'Everybody can be Somebody'

Awarding of GCSE and Vocational Qualifications 2021

This booklet sets out the range of assessment evidence that is being used to determine a Teacher Assessed Grade for each of our qualifications at Sandringham.

In line with guidance from Ofqual, JCQ and exam boards, students' grades are to be decided by teachers and are to be **based on evidence of students' performance**. Grades are not an estimate of what students might have achieved had they sat their final examinations, as was the case in 2020.

In the pages that follow, **each subject has set out the range of assessment evidence** that is being used in order to arrive at a final grade. This assessment evidence includes assessments already carried out throughout the course, as well as new assessments being undertaken in the summer term 2021 (Internal Assessments). In addition, where Non Examined Assessment (NEA) comprises part of the qualification, students have continued to complete this important work and it comprises part of the portfolio of evidence where relevant. NEA is the coursework element of a subject and is the means of assessing essential knowledge and skills that cannot be tested in an examination.

Directors of Learning have carefully considered the selection of assessment evidence and have done so in line with national guidance, school and exam board Quality Assurance processes. We are obliged to inform students and families that **the range of assessment evidence used to determine a grade is not negotiable**.

Regarding the relative weighting of evidence for each qualification, it is unlikely that the sources of evidence will carry an equal weight. As per national guidance, Directors of Learning and will be considering the confidence they have in each piece of assessment evidence. Directors of Learning and teachers will be making a holistic, objective judgement of the evidence to arrive at a grade that is both fair and valid. The decision about a student's grade for each qualification will be determined by the professional judgement of the Directors of Learning and teachers in each subject and it will be subject to school and exam board Quality Assurance processes.
