Dear Parent/Carer,

Year 10 GCSE Science Resources

As your child continues with their GCSE Science course and has now been allocated onto their Science pathway, we are keen that they have access to multiple resources to support their learning. The school is investing a significant amount into online revision resources to support students in their learning in science including Educake, an online quizzing tool, and My-GCSE Science which provides video tutorials, and exam questions. A two-year subscription to My-GCSE Science usually costs £50 per student, however we have managed to secure a significant discount and are making a request for a contribution of **£9.50 per student** towards the cost of a two-year subscription.

In addition to this, we offer students and parents/carers the opportunity to purchase CGP revision guides through the school at a discounted price. These revision guides provide a succinct, easy to follow, set of notes as well as exam style questions which students in the past have found incredibly helpful.

For the combined science (double science) the book containing all 3 subjects is priced at **£11**.

For triple science, the science courses have been split into three individual subject books which are priced at £5.50 each, giving a total cost of **£16.50**.

If you would like to purchase MyGCSE science and the revision guides please make payment via ParentPay by **Monday 27th September**.

Yours sincerely,

Lucinda Archer-Jones
