Letter No: 036/2023

5th October 2023

Dear Families,

A-Level Physics Trip to Science Live! At Emmanuel Centre in London

We have booked entry to the Science Live! A-Level Physics conference at the Emmanuel Centre in London on Tuesday 21st November. As part of the visit students will listen to talks from world class scientists who are leading their fields, including the theoretical nuclear physicist, author and broadcaster, Jim Al-Khalili. Further details can be found here: https://sciencelive.org.uk/alevel/event_categories/londonphysics/

The cost of entry to the conference is £23 and can be paid via ParentPay – payment to be made by Thursday 12th October.

We plan to meet outside **St James' Park Underground Station at 10am on Tuesday 21st November**. Students will be responsible for getting themselves to and from this location, and we recommend they travel in small groups to get discounted travel cards.

The event is expected to last until 3:30pm. Students are advised to bring a packed lunch to eat.

Students will need to arrange for collection or make their way home from the venue. Train times and timetables are subject to change, and we recommend that students text or message you on the day to notify you of any delays/changes.

Further details to this plan will be published on Google classroom prior to the event.

Yours sincerely,

James Powell
Head of Physics
